

APPENDIX D

SLIDES OF TRANSECTS AND PHOTO POINT SLIDES

~~Slides and slide descriptions under separate cover.~~

slides on file at Devils Tower N.M.

Slides of permanent transects established in 1988 for monitoring vegetation changes in response to prescribed burning (for transect locations, see Figure 2 in main report).

C = control; B = burn; R = ridge; S = swale; P = pine

Slide #	Transect #	Comments
22A	CS1	looking along transect from start to finish
25A	CS2	start to finish
26A	CS2	finish to start
23A	CR1	start to finish
27A	CR2	start to finish
28A	CR2	mid-transect to start
29A	BS1	start to finish; note northeast gate on right
30A	BS1	finish to start
2B	BS2	looking across start
3B	BS2	start to finish from old two-track
34A	BR1	start to reorientation point (at 37.25 m)
35A	BR1	looking across transect at start; note north boundary fence on right in distance; northeast gate sign visible through trees
36A	BR1	reorientation point to finish; note north boundary fence on left in distance
37A	BR1	looking towards start; note pine invasion
4B	BR2	start to finish
5B	BR2	looking across start
6B	BR2	finish to start
32A		nested quadrads for sampling grassland communities

Slide #	Transect #	Comments
7B	P1	start to finish
8B	P1	looking across start
9B	P1	finish to start
10B	P2	start to finish
11B	P2	looking across start
12B	P2	finish to start
13B	P3	start to finish
14B	P3	looking across start; note northeast gate and north boundary fence in distance
15B	P3	finish to start
18B	P4	start to finish
19B	P4	midpoint to finish; note north boundary fence and trailer in distance
20B	P4	finish to start
21B	P5	start to finish (see Jane at finish) from old 2-track
22B	P5	finish to start (see Jane at start)
23B	P5	looking across finish; north boundary fence in distance
24B	P6	start to finish
25B	P6	from 11-m point to finish; note trailer in distance
26B	P6	looking across finish; northeast gate visible
27B	P6	finish to start; note Tower in trees on right
17B		numbered aluminum tag used for marking pine trees
